

Lincoln Memorial University Showcase

“TableX will always custom make anything that I can design.”
says **Mark Waters with Indoff Office Interiors**. “And not only did the product exceed the end users expectations, but it did so at a better price. TableX is the best vendor for customer service, always willing to work on any size project and time constraint.”

Mark commented, “With detailed installation instructions provided, it makes any job easy.

And, when the president of the company drives four hours each way to help with installation, that speaks volumes about what the company is about.”
