

U R

s p a c e  
p l a n n i n g

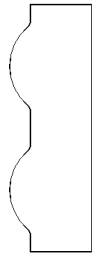

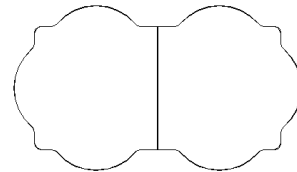

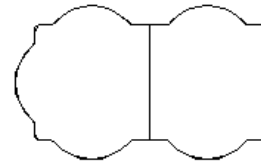

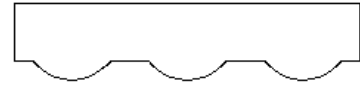

**U R s p a c e** configurations can make a workspace so much more interesting than a standard configurable table. A multitude of conference table situations, team settings, and training environments can be configured from the handful of simple UR space tops.

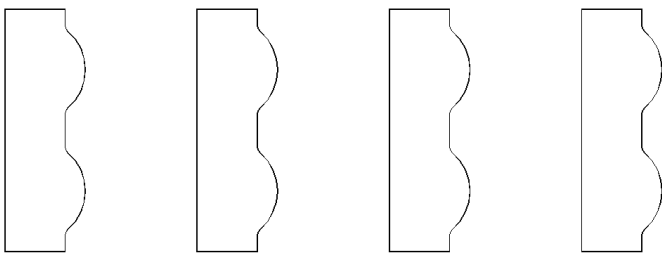

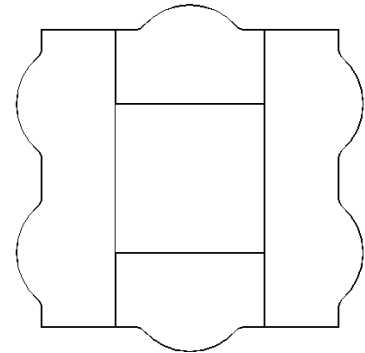

**U R s p a c e** gives each user their own focused space. It goes beyond the monotonous shapes of common tables to add interest and possibly added creativity to the minds of team members.
